

Indiana Office of Technology (IOT) Information Technology Policy (ITP) 04-01

Technology Profile: Wireless Networks

Specific Area: Wireless Implementation

Purpose: To establish requirements for implementing wireless technology as part of the state's backbone.

Policy:	To ensure all wireless implementations meet state standards for security and technological architecture all agencies will follow the implementation guidelines and procedure outlined in the "Wireless Network Implementation Guidelines". Failure to follow the guidelines could result in disconnection from the state backbone and wireless network being dismantled.
---------	--

Scope: All agencies within the executive branch of Indiana state government and those connected to the state backbone

Statutory Authority: IC 4-13.1
